Public Order Offences	1	17%
Violence With Injury	1	17%
Violence Without Injury	1	17%

The above chart shows the types of crime committed in February 2025.

Public order offences.

These types of offences usually come from a conflict involving another person. More often than not these are low level things like shouting and swearing in a public place or making certain type of threats towards another. This incident listed relates to a disagreement between two people which resulted in some swearing and a member of the public called us to make us aware to prevent it escalating. Matter was over a personal family matter. The matter has been resolved, and both parties had been sent on their way.

All other theft, this is the highest recorded crime category for the month with three incidents.

These incidents are low level, for example one has been reported of locks and chains stolen.

Violence with injury following a report of road traffic collision where a driver of a vehicle had minor injuries.

Both vehicles were recovered, and no long-lasting injuries were sustained only minor injuries.

There have also been a few positive stops searches for possession of cannabis. Small groups of individuals and strong smells. These individuals were detained for the purpose of a search and a positive result was finding of class B cannabis in their possession.

The individuals had their drugs seized and have gone through the processes for a community resolution which is an out of court disposal.
