

# Refuse Collection & Recycling

## **FORTNIGHTLY GREY BAG COLLECTION DATES**

Rogiet have moved to a fortnightly refuse collection service for general waste, with red, purple, green food waste and garden waste being collected weekly. This change was an initiative aiming to encourage you to recycle more of the waste produced from your household, and the project has been very successful.

Click here for [Fortnightly Collection Dates for 2015](#)

Red, Purple, small green food and dog waste bags are available from the Community Council Office at Magor Police Station, Caldicot One Stop Shop, Farthings Estate Agents Magor Square, The Rogiet Village Sports Hall and the Rogiet Community Café.

## **ENERGY SAVING LIGHTBULBS, AEROSOL CANS, CARDBOARD**

These contain small amounts of mercury and are, in effect, a compact fluorescent lamp. They can readily be recycled at the Five Lanes Household Waste Recycling Centre together with the larger fluorescent lamps. Due to their nature they cannot be recycled as part of the kerbside collection scheme.

Aerosol cans are suitable to be put within the purple recycling bags and placed out for collection on your recycling collection day.

All card and cardboard will now be collected with your red and purple bags and recycled back into new cardboard products. Place your large cardboard boxes alongside your recycling bags. Cardboard will no longer be collected with garden waste.

## **BATTERIES**

Household batteries can also be recycled at the Caldicot One Stop Shop or at the Community Council Office at Magor Police Station during office hours.

Did you know that around 1 billion household batteries are used in the UK every year? And in 2009 only about 3% of those were recycled. Recycle your household batteries: laptop battery, mobile phone battery, 6V, D, C, AA, AAA, 9V, and button batteries (*please tape up button cell batteries before placing in the recycling box*).

## **FOOD CADDIES & BLUE BOXES**

Replacement food boxes can be ordered from the Caldicot One Stop Shop
