

Severnside Neighbourhood Policing Team are starting up a 'speed watch'.

Your local policing team are looking for individuals, who will be involved with monitoring the speed of vehicles within certain areas in which you live. These dedicated members will be asked to assist with an hour of their time a week, at least 8 individuals needed, who will receive training on the speed gun and may have to go through some police checks.

These volunteers will be working alongside the local police and community support officers to monitor the speed on streets that have been highlighted and then send all results back to the speed enforcement department within Gwent. This watch has already started within the Monmouth area and has had good results. If you are interested, and over 18, please contact myself ruth.james@gwent.pnn.police.uk or Hayley.brown@gwent.pnn.police.uk
